Sept 30 (Sat): *Open Garage* at [Al & Barb Slarks'](#), 6299 Sunshine Canyon Dr., Boulder, 11 AM.

Oct 15 (Sun): *Plains Ride*, hosted by [Scott & Julie Robinson](#), 1711 E. 83rd Pl., Denver, 9 AM.

Mount Evans / David Sheesley Brunch Ride

This was my first time joining this yearly club event. I'm glad I was able to make it this year. We started the day with Eric leading us up Lookout Mountain then over the Mount Evans road and ending up at David Sheesley's house for lunch. David along with some other contributors put out quite the spread. We then enjoyed our other favorite past times, eating, drinking and telling stories and bad jokes.

Century Ride

This event follows Old Bike Ride rules: motorcycles must be 1980 model year or older. The beautiful and much-sought-after Century Rider's patches are awarded to riders who complete the 500+ mile course and for whom the age of their motorcycle (37 years or more) added to their own age equals or exceeds 100. This year patches were earned by:

Eric Bergman (46 + 66 = 112)

Debby Johnson (46 + 60 = 106)

Robin Webster (39 + 63 = 102)

Scott Shuler (41 + 65 = 106)

As any of these riders will tell you, the Century Ride is not a trivial endeavor for rider or motorcycle, but as I told one of them who was wavering about riding her Norton, what are you going to reminisce about when most of your days are spent in a rocker on the front porch? Are we not Norton Riders? -- Eric

Pre Ride meeting or Jack just BSing??

Jack was unable to ride this year due to recent back surgery, but he and Peggy still joined the group driving the SAG wagon. That's the kind of dedication to the club that has helped Jack and Peggy win the President's Trophy for several years.

Shop Tour

By Eric Bergman

Vintage Twins, 5611 Kendall Court #2, Arvada <<http://vintagetwins.com>>

The Moto+Scooter Lab, 2445 Raritan St., Englewood <<http://www.scooterlab.net>>

Moto Works Denver, 2000 S. Cherokee St., Denver <<https://motoworksdenver.com>>

The weather for our Shop Tour was very suitable for Nortons: overcast, mild and drizzling a little, now and then. The Yellow Stallion (Chuck Arndt's old Commando) enjoyed the cool, damp weather and ran perfectly, even slipping into neutral pretty consistently. I carried rain gear but never felt the need to put it on. Most of the other people who came out for the Shop Tour did not need to put on their rain gear either, because they were four-wheeling it. Tom Tallick turned up on his BMW at the first stop, J.C. Crist's Vintage Twins shop in Arvada. Jack Abeyta is not yet allowed to ride since his back surgery and he is getting pretty anxious to get back to defending his President's Award title. Bob Martin was also in a car, thanks to recent surgery on his back to remove some cooties. Hopefully he'll be back in the saddle again soon.

J.C. was very gracious and waited almost an hour before running us out so he and Dave Easley could get some work done. Dave does all the Norton work but he is only in residence from May-September. The rest of his time is spent in Panama, taking advantage of warm weather and cheap health care. In fact we saw our own Peter Geise's Commando on the lift today, but no sign of Peter. J.C. works on Triumphs and BSAs year-round and he is happy to order Norton parts for us. The shop is a fine example of what motorcycle shops were, back in the days before they became Lifestyle Boutiques.

From Vintage Twins only Dennis Horgan and I continued on to the next stop, The Moto+Scooter Lab, down in Englewood. The Lab is owned and run by two experienced motorcycle mechanics, Joe and Tony, and there is another mechanic named Russell who was not there today. They have an interesting business model: working on scooters provides a steady income and makes it possible for them to stay open to work on the vintage motorcycles, including Nortons, that they enjoy most. They also seem to do quite a bit with old Italian machines. Joe and Tony are both pretty comfortable with Nortons and profess to like them, but they agree Russell is the closest thing to a Norton specialist there, as he actually has owned Commandos. The shop seems to be well-equipped and I had a good impression of their capabilities.

From the Lab, it's a short hop across Santa Fe Blvd to get to the newly-opened Moto Works Denver facility on South Cherokee. Our own King Browne is a partner in the business, along with his friend Sev Bonney. They both have a strong background in vintage motorcycles and racing. Sev has a beautiful Royal Enfield Interceptor at the shop and we chatted a lot about a Laverda 750 he has stored nearby. Moto Works is a really impressive facility with comfortable office and lounge space fronting a large service area that holds about a half-dozen lifts, each with its own tool chest, and many supporting resources and facilities needed for motorcycle repair and maintenance. They don't have the metal-working, polishing and painting facilities that one would need for a major restoration but those facilities are available at other businesses nearby. King and Sev employ a full-time mechanic and they are both capable mechanics themselves.

Shop Tour p. 2

For now they are mainly taking in bikes to work on themselves, but they are hoping to build the DIY aspect so that people can learn to maintain and repair their own bikes under supervision (as needed) with access to professional-grade tools and equipment. They responded very enthusiastically to my suggestion that they could host a Tech Day for us sometime.

Mike Fields turned up at Moto Works Denver on his Norton (presently in Hi-Rider garb). He looked a bit under the weather and readily admitted that he's been through a rough patch with his health, which seemed like the theme of the day. Mike is slowly improving but he still needs to be careful about over-exerting himself. We wish him well!

In summary, all three of the shops we visited today have something to offer members of Norton Colorado and I think you will find the proprietors of all of them to be competent and gracious. Be sure to mention you are from Norton Colorado if you interact with any of them.

Riding the Great Lakes

by Scott Robinson

For this summer's adventure ride Julie and I decided to tour the Great Lakes from the Ontario, Canada side. Throw in a motorcycle museum, several lighthouses, a couple of family visits and we had a route.

The Circle Tour is the name given to the ride around Lake Superior. As we had already done the American side of the circle we decided to start in Ashland, WI and travel clockwise, completing the circle in Sault Saint Marie. We then continued east and rode over to the Manitoulin Island in Lake Huron, which is the largest freshwater island in the world.

A ferry then brought us and the bikes over to Tobermory where we had access to the Georgian Bay and the beaches of Lake Huron. We headed south, rode along Lake Erie and headed to another ferry that would take us across Lake Erie and leave us in Sandusky, Ohio.

Riding in Ontario was a little tame for our tastes. Roads are fairly straight and speed limits are low, if you choose to follow them. At the end of one day, after telling Julie how I got to lean the bike a little in the curves, she reminded me that if I have to use a turn signal it is not a "curvy road", oh yeah, and roundabouts don't count either.

On the other hand, the views of the lakes were very nice. It's hard to believe that much water is a lake. I tend to think of lakes as bodies of water where you can see the other side. There were views of canyons and trees. It was all very green. As luck would have it the road washed out and we had to detour just before "the best stretch of the entire ride". Fortunately, while on this huge detour we did find a stretch of road that was very rollercoaster-like, our favorite of the ride.

So, while this may not have been our most exciting ride we still had a blast. Canada is a nice place to visit, and Canadians are some of the nicest people you could ever meet.

We were on the road for 24 days and covered 4600 miles. We visited the National Motorcycle Museum in Iowa, saw a travelling antique car show in Ontario, saw about a dozen lighthouses, took 2 ferry rides and had rare and entertaining visits with both our families. Sounds pretty exciting when I put it that way!!

The Chi-Cheemaun ferry took us across Lake Huron

The National Motorcycle Museum in Iowa had several Nortons in its collection.

The 87 foot tall Point Clark Lighthouse is the oldest stone lighthouse in Canada.

Jim Colt said "The Wawa Goose is a cultural icon not to be missed." So here we are.

The MV Pelee Islander was our ferry home to the United States.

As the sun sets over Lake Huron our thoughts turn to next year's adventure. Where to go ??

Jamie and Michelle Jones' Wimpy Campout

by Debbie Johnson

I rode my W650 up from Crestone, taking the direct route due to rain. 170 miles door to door. Big rain and hailstorm came through after I arrived. Robin was riding up during the storm but managed to miss it and arrive dry.

Some of the regulars were not there this year but we still had a good group. No whiskey shots this year though, maybe because Scott and Julie weren't there to instigate it! (Rumor has it that Jack and Denny continued the tradition late into the evening, polishing off a bottle of scotch.)

Good time had by all, nobody went home hungry.

Sunday morning I rode down to Frederick where I had previously left my Soul and trailer. Didn't have time to transport them during the move. When we got up it was foggy and wet in Conifer but the fog lifted and the rain held off, and I arrived dry. I loaded the bike on the trailer and drove back home to Crestone. Lots of rain on the drive back, glad I wasn't on the bike! I accomplished my mission of moving my car and trailer.

Only five people rode to the event:. There were no Nortons in attendance this year.

Chris Geller - Harley
Robin Webster - Moto Guzzi
Peter Allen - Moto Guzzi
Mark Liu - KTM

34th annual Colorado English Motoring Conclave Information:

A Message From the Gary George and the Committee:

I hope you are looking forward to the 34th annual Colorado English Motoring Conclave. Yes, 34 years, that is a long time and I have been on the committee all of that time and been the chairman for more years than I care to remember. I have committed to the chairmanship for the next two years at which time I will be 80. I'm not complaining mind you just a little slower. The rest of the committee is growing older also, which brings me to the subject of this letter: If you enjoy the Conclave and want to see it continue we need your help.

Please join us on the committee so you can carry on when I/we can't. Please call me at 303-358-6860 and let's discuss it.

Gary George and the conclave committee

SENIOR SEX

The husband leans over and asks his wife, "Do you remember the first time we had sex together over fifty years ago?"

We went behind the village tavern where you leaned against the back fence and I made love to you."

Yes, she says, "I remember it well."

OK, he says, "How about taking a stroll around there again and we can do it for old time's sake?"

"Oh Jim, you old devil, that sounds like a crazy, but good idea!"

A police officer sitting in the next booth heard their conversation and, having a chuckle to himself, he thinks to himself, I've got to see these two old-timers having sex against a fence. I'll just keep an eye on them so there's no trouble. So he follows them.

The elderly couple walks haltingly along, leaning on each other for support aided by walking sticks. Finally, they get to the back of the tavern and make their way to the fence. The old lady lifts her skirt and the old man drops his trousers. As she leans against the fence, the old man moves in. Then suddenly they erupt into the most furious sex that the policeman has ever seen.

This goes on for about ten minutes while both are making loud noises and moaning and screaming. Finally, they both collapse, panting on the ground.

The policeman is amazed. He thinks he has learned something about life and old age that he didn't know.

After about half an hour of lying on the ground recovering, the old couple struggle to their feet and put their clothes back on.

The policeman, is still watching and thinks to himself, this is truly amazing, I've got to ask them what their secret is.

So, as the couple passes, he says to them, "Excuse me, but that was something else. You must've had a fantastic sex life together. Is there some sort of secret to this?"

Shaking, the old man is barely able to reply, "Fifty years ago that wasn't an electric fence."
